Randy,

Here is the Inspection report from MMD for Haystack mine and about 10 other mines.

John Hall, Mining Act Team Leader
Mining Environmental Compliance Section
Ground Water Quality Bureau
New Mexico Environment Department

Subject: Re: Tronox - Portal DMP and Requirements document

Will do.

Kurt, EPA Region 9 has been looking at a mine in the Navajo Checker board called Haystack #1 or Section 19 (35.345371°, -107.943195°) During our enforcement process, we realized that the property it actually private land. Who can I talk to provide additional information?

Thanks,

Hi Randy,

Could you please add John Hall to your distribution list? John will be the lead for NMED on all actions related to Tronox.

Thanks.

Kurt Vollbrecht, Program Manager

Subject: Tronox - Portal DMP and Requirements document

Good morning,

As we discussed at our last Tronox coordination meeting, here are the DMP and Requirements document for the Portal (and site specific DMP template). At a minimum, please review Sections 2.5 and 3.0 of the DMP. Please identify any additional data streams that may be missing from these sections. I'm specifically interested in any AML information that has not been identified (reclamation and other very important data). Please, if possible, have any final comments back by COB June 12.

Thank you,

Randy B. Nattis
